

Blueberry Jam

WHO WE ARE

Ceylon To Earth is a passionate Sri Lankan artisanal fruit preserves company bringing the authentic flavors of our homeland to global tables. We partner directly with local organic farmers, ensuring sustainable cultivation while supporting our communities. Each of our products is handcrafted in small batches using traditional methods, free from artificial additives and preservatives. Our mission combines Sri Lanka's rich culinary heritage with environmental responsibility to create premium organic products that connect cultures through exceptional taste experiences.

OUR LATEST ADDITION

We are excited to introduce our newest addition to the Ceylon To Earth family - our organic Blueberry Jam. This premium offering brings the pristine flavors of Sri Lanka to breakfast tables around the world.

DESIGN STAGE

Raw Materials:

- Organic blueberries sourced from local farms practicing sustainable agriculture.
- Minimal ingredients to reduce environmental impact.
- Recyclable glass jars and metal lids.
- Labels made from recycled paper.

Design Considerations:

- Minimal packaging design to reduce material usage.
- Reusable jar design to encourage second life applications.
- Recipe formulated to maximize shelf life without artificial preservatives.

PRODUCTION STAGE

Water Management:

- Water-efficient cleaning procedures.
- Water efficient production procedures.

Waste Management:

- Fruit waste composted and returned to local farms.
- Minimal batch production to reduce excess.
- Energy-efficient cooking methods.
- Powered by renewable energy.

Transportation:

- Local ingredient sourcing to minimize transportation emissions.

CONSUMPTION STAGE

Consumer Benefits:

- Healthier alternative with no artificial ingredients.
- Educational packaging with sustainability information.
- Recipes for using entire product (zero waste).

Consumer Engagement:

- Discount program for returning empty jars.
- Transparent information about product origins and practices.

A decorative green leafy branch with small, rounded leaves, extending from the top left corner of the slide and partially framing the title.

DISPOSAL STAGE

Packaging Solutions:

- Glass jars are 100% recyclable.
- Metal lids are recyclable.
- Paper labels are compostable.

Circular Economy Approach:

- Jars designed for reuse (canning, storage, crafts).
- Partnership with local recycling facilities.
- Educational materials on proper disposal/recycling.

ECO-FRIENDLY CERTIFICATION

Our Commitments:

- Organic certified ingredients
- Fair trade certified
- Plastic-free packaging certified
- Cruelty-free operation

THREE PILLARS OF SUSTAINABILITY

Sustainability is achieved through the balance three concepts:

- 1. Social**
- 2. Economic**
- 3. Environmental**

Sustainable development meets the needs of the present without compromising the ability of future generations to meet their own needs.

A decorative green leafy branch with small, rounded leaves hangs down from the top left corner of the slide.

PILLAR 1: SOCIAL SUSTAINABILITY

Ceylon to Earth's Social Impact:

- Fair wages and safe working conditions for all employees
- Support for local farmers and communities
- Inclusive hiring practices
- Transparency in business practices

A green leafy branch with small, rounded leaves hangs down from the top left corner of the slide.

PILLAR 2: ECONOMIC SUSTAINABILITY

Ceylon to Earth's Economic Model:

- Fair pricing that reflects true production costs.
- Direct trade relationships with farmers.
- Local job creation and skills development.
- Long-term contracts with suppliers.
- Investment in resource-efficient technologies.

PILLAR 3: ENVIRONMENTAL SUSTAINABILITY

Ceylon to Earth's Environmental Practices:

- Biodiversity support through sustainable farming.
- Carbon footprint reduction throughout lifecycle.
- Waste minimization and circular economy approach.
- Water conservation practices.
- Energy efficiency and renewable energy usage.

WHY OUR PRODUCT IS SUSTAINABLE

- Addresses all three pillars of sustainability equally
- Continuous improvement culture
- Third-party certifications to validate claims
- Regenerative rather than extractive practices

FUTURE SUSTAINABILITY ENHANCEMENTS

Two Key Improvements:

1. Renewable Energy Expansion:

- Install additional solar capacity to become net energy positive
- Create a renewable energy cooperative with other local businesses

2. Packaging Innovation:

- Implement a more robust jar return and reuse program
- Explore locally-sourced alternative packaging materials

CONCLUSION AND SUMMARY

Ceylon to Earth Blueberry Jam:

- A truly sustainable product across design, production, consumption, and disposal
- Balances social, economic, and environmental considerations
- Provides a delicious product while caring for our planet
- Demonstrates that sustainable business practices can be commercially viable
- Invites consumers to participate in the sustainability journey

THANK YOU!

Ceylon to Earth
